TuART BUFFET

TuART BUFFET

The trend setting designs from TuArt will your distinguish function. The multi-directional access to the table in addition to the myriad of elevations of our risers supports our 360-degree service, allowing you to make effective use of your space without overcrowding. The rich, dark woods and smooth stainless steel of the buffet table will add a taste of elegance to the sophistication of your arrangement.

Special thanks goes to first our designer Enver Sarıal, Executive Chef Serdar Özkan, Pastry Chef Serkan Bozkurt and to Fish of North Restaurant.

Glacier Ice tanks are produced from the highest quality stainless steel and glass materials. Ice tanks include an easily removable stainless steel perforated support tray, keeping the ice and food at an optimun height, while separating it from melting ice water at the bottom during use. An easy twist drain at the bottom allows the Glacier Ice Tank to be drained effortlessly. Additional support trays with stainless pitcher guides are available.
